Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours. A sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistake but remember the name, Swamp Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

miles interior from Hong Kong in China. She will leave the latter part of August in company with Mrs. and Rev. Dr. Bryan. Miss Moorman has already commenced to make preparations for her long journey.

Fourth of July.

Celebrations often result in serious accidents to boys and girls. So get a bottle of Paracamp, First Aid to the Injured, the remedy which heals Burns, Cuts, and Bruises quicker than anything else. It relieves pain and heals without leaving ugly scars. Every bottle guaranteed.

Didn't Need Washing.

The Aino, an uncivilized tribe on the island of Yesso, are not at all fond of bathing. Indeed, they share the Chinese idea that it is only dirty people who need continual washing. They do not regard themselves as dirty and therefore dispense with the uncleanly habit.

"You white people must be very dirty," said an Aino to a traveler as the latter was preparing to take a plunge into a limpid river, "as you tell me you bathe in the river every day."

"And what about yourself?" was the question in turn.

"Oh," replied he, with an air of contempt, "I am very clean and have never needed washing!"

Sued by His Doctor.

"A doctor here sued me for \$12.50, which I claimed was excessive for a case of cholera morbus," says R. White, of Coachella, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used, as I had good reason to believe it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by Short & Haynes.

FRENCH MIDDLE CLASSES.

They Are Passing Rich on a Thousand Dollars a Year.

"A French lady, widow of an officer, once said to me," says the writer, "that she always traveled first class because she was rich, afterward explaining that her income was exactly \$200 a year. But she was rich because most likely she never spent more than \$170, and the explanation, I dare say, applies to the medical men in the country. They are rich, in all probability, on three or four hundred a year—rich just because they make much more than they spend. In order to comprehend French life and character we must bear one fact in mind. Appearance is not a fetish in France as in England; outside show is not sacrificed to Mrs. Grundy is no twentieth century Baal. On the other hand, good repute is sedulously nursed; personal dignity and family honor are hedged round with respect.

"We must not take the so called realistic novelist's standard to be the true one. Frenchmen, I should say, as a rule, spend a third less upon dress than Englishmen. It does not follow that the individual is held in slight esteem, personality discounted. These provincial and country doctors do not outwardly resemble their spick and span English colleagues, nor do they affect what is called style in their equipage. In most cases the conveyance is a bicycle—and manner of living. How can they upon an income derived from one and eight penny fees? But many are doubtless rich in the logical acceptance of the word—that is, they live considerably below their income and save money."—Chambers' Journal.

Kentucky Delegation's Work.

Chicago, June 22.—The Kentucky delegation held a meeting in the Palmer House this morning and decided to vote for Fairbanks for Vice President. Though the matter was informally discussed yesterday, and the feeling for the Indiana Senator plainly shown, the resolution instructing the delegates to vote for him as a unit was not carried without opposition.

Gov. Bradley offered the resolution and the Hon. Leslie Combs at first opposed. Gov. Bradley apparently won over Mr. Combs by another speech, and the latter voted for the resolution. One declaration for Senator S. B. Elkins, of West Virginia, and one for Congressman Hitt were made. The latter came from the Hon. A. E. Wilson, of Louisville.

Gov. Bradley and Commissioner Yerkes have been inseparable today. Locked arm in arm, they have been strolling together in the Palmer House.

Texas for Parker.

San Antonio, Tex., June 22.—The state Democratic convention finished its business today. The delegation was elected instructed to vote for Parker and to vote as a unit on all questions. The platform adopted was short, embracing merely an enunciation of Democratic fundamental principles. There was vigorous and successful opposition to a minority report proposing a plank declaring against an asset currency and the control of money by national banks. On recommendation the platform was made to contain the words: "We are opposed to mint currency and the control of the volume of money by the banking power." A motion that the delegates be instructed to place Senator Bailey in nomination for vice president was ruled out of order.

A TANTALIZING FISH.

The Ways of the Salmon Are Beyond Finding Out.

Who knows the way of the eagle in the air or of the salmon in the sea? Of all fish the most tantalizing, he has been the life study of thousands of men. Yet how little any one really knows about him, and how conflicting is the testimony as to what is known! If you want to get the idea that there is no such thing as abstract truth, you can form that opinion quickly by sitting in front of the fireplace in a fishing club some evening when the most experienced members are present and feel like talking. There is scarcely any proposition connected with the life history of this fish upon which any two men of forty or fifty years' experience in salmon fishing will agree. The biography of the fish is filled with puzzling blanks. You catch a glimpse of him in his infancy. He mysteriously disappears, returns during adolescence and then is gone again until, on his third appearance, the infant has grown to be fully mature. Who would think the childish smolt of a few ounces that slips quietly down river in the early spring could come back the same summer in the pride of youth as a three or four pound grise? And the next time he goes upon what meat doth he feed that he jumps to maturity and ten pounds weight? What ports does he visit while he is off on his deep sea cruise? Where does he keep the chart by which, after his far away wanderings, he unerringly returns to his birthplace? And why do many grise come to some rivers and comparatively few or none to others? In Miramichi waters there are in August ten grise to every full grown salmon. In the Tobique there are scarcely any grise at all.—From "The Trout of the Neplusguit," by Frederic Irland, in Scribner's.

Your Heart.

When Your Heart Fails to Pump Your Blood, Trouble Results.

Have you heart trouble?

You have, if you find it hard to breathe after walking up stairs, exercising, etc. If you have pain in your left side, in chest, back or shoulder. If you suffer from cold extremities, pale face, blue lips, dry cough, swollen ankles.

If you have fainting spells, breast pang, palpitation, redness of the face, discomfort in sleeping on one side.

The only scientific treatment for this whole train of troubles is Dr. Miles' New Heart Cure.

Dr. Miles' New Heart Cure is the prescription of a famous specialist, whose great success in treating obstinate nervous heart disease has made his name pre-eminent in the medical and scientific world.

The medicine will cure you. We know it. We want you to prove it. If first bottle does not benefit, your druggist will give you back your money.

"I have for several years suffered at times with heart trouble. I got so bad I could not sleep half the night, and had to sit up on the side of the bed lots of times to get breath. Three of my brothers have died of heart trouble, but about two and a half years ago I got a pamphlet about Dr. Miles' New Heart Cure and thought I would try a few bottles. After using them I recovered, and have had better health since then than before for several years. I can heartily recommend them for heart trouble."—REV. KENTUCKY EDITORS PAY COMPLIMENTS TO THE HENDERSON ROUTE.

Courteous Passenger Agent.

After a busy day at Louisville on the 13th of June, a partial report of which appeared in the last issue of The Bee, the Kentucky Press Association party left at 9 o'clock at night, exactly on time, for St. Louis, over the "Henderson Route" in charge of the ever courteous and capable passenger agent, Mr. Geo. L. Garrett.

The newspaper men and ladies made mental note again of the unflinching courtesy of the Louisville & Nashville and Louisville, Henderson & St. Louis railroads. Mr. Geo. L. Garrett, for the "Henderson Route," and charge of the train going. Mr. W. L. Mapother, of the L. & N., accompanied the party and spent two days at the Fair. Nothing was left undone that these gentlemen could do for the convenience of the press people.—Earlington Bee.

Puts You There While Asleep.

We left Louisville at nine Monday night on a special train of Pullman Sleepers over the Henderson Route, which puts you into the World's Fair city while you sleep. We arrived at eight o'clock and were met at the depot by representatives of the Inland Tye foundry and taken to the Hotel Jefferson for breakfast, followed by a visit to the type foundry where the entire plant was inspected.—La Rue County Herald.

Triumphs of Modern Surgery.

Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed entirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one third the time required by the old treatment. Chamberlain's Pain Balm acts on the same principal. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by Short & Haynes.

Not Too Blind.

Passerby—I thought you were blind. Mendicant—Well, sir, times is so hard and competition is so great that even a blind man has to keep his eyes open nowadays if he wants to do any business at all.

Tireless in His Efforts.

After the business session at Louisville, the party, two hundred strong, left for St. Louis over the Louisville, Henderson & St. Louis railroad, which extended special courtesies to the editors. General Passenger Agent Garrett was on the train and was tireless in his efforts to see that everybody was comfortable and happy.—Hopkinsville New Era.

No Kinder Officials.

A special train over the Louisville, Henderson and St. Louis Route was tendered by the railroad officials and accepted by the members of the Press Association. The roads are always kind to the Press boys, especially when it comes time for them to take their annual outings. There are no better roads, with kinder officials than are the Louisville, Henderson and St. Louis and the Louisville and Nashville. The kindness is appreciated by all the editors and their families.—Glenn's Graphic (Madisonville).

Can Not Be Excelled.

On the night after the business session the editorial party, about 200 in number, took sleeping cars for St. Louis, to be present on Kentucky Day at the World's Fair. The trip to the World's Fair City was made over the L. H. & St. L.—"The Henderson Route"—and the L. & N. railroads. For comfort in travel these roads can not be excelled by any line in the land.—Hartford Herald.

Killing His First Man.

(Youth's Companion.)

The killing of a brother-man, even in battle, is a painful thing to remember. A soldier of the late war thus vividly describes his first experience: "My first man I saw but twenty seconds, but I shall remember him forever. I was standing by my gun when a Confederate infantry soldier rushed up.

"I whipped out my revolver and took him through the breast. He tossed up his arms, gave me the strangest look in the world, and fell forward upon his face. He had blue eyes, brown curling hair, a dark mustache, and a handsome face.

"I thought the instant I fired that I should have loved that man if I had known him. I tell you this war is terrible business."

One Obstacle Only.

Scholar—Professor, your mnemonic system is wonderful, and I am sure that any one, after mastering the rules, can learn to remember anything. But I am handicapped by one difficulty. Professor—What is it? Scholar—I can't remember the rules.—Town and Country.

The Feminine Language.

(From The London Outlook.)

You may talk to a woman for an hour or more and understand every word she says. Meat, bread, money; motor cars, drains, the ace of trumps—there is really no space at my disposal to give a list of the words that are common to both languages. In fact, most of the solid, concrete things of life may be left out of the question. It is when we pass beyond the concrete that the real misunderstanding arises. Take a couple of very common words used equally by both sexes. A man will say that So-and-So is a "nice" girl. I should know what he meant. A woman will reply that the girl is pretty, agreeable and all that sort of thing—but that she is "not quite nice." The two are using the same word to express different ideas, and they will never agree as to whether that girl is nice or otherwise until they can talk the same language.

Again, in the feminine dictionary the opposite of "nice" is "horrid." A man will talk of a "nice scoundrel" and a "horrid bore," and I can understand him. But when a woman tells me that a man is wealthy and clever and good looking—"but I'm sure he's horrid"—she has dropped into her foreign language. I can only be sure that she does not mean what I mean when I speak of a "horrid girl."

A Strong Heart

is assured by perfect digestion. Indigestion swells the stomach and puffs it up against the heart. This causes shortness of breath, palpitation of the heart and general weakness. Kodol Dyspepsia Cure cures indigestion, relieves the stomach, takes the strain off the heart and restores it to a full performance of its function naturally. Kodol increases the strength by enabling the stomach and digestive organs to digest, assimilate and appropriate to the blood and tissues all of the food nutriment. Tones the stomach and digestive organs. Sold by all druggists.

Eccentric.

Burgess—Oh, yes; Charley is all right; a little eccentric, though. I've noticed several times when he has borrowed a lead pencil, instead of putting it into his pocket, as any one else would do, he hands it back to the owner.—Boston Transcript.
